

BLADE-4 LED Steplight

Description

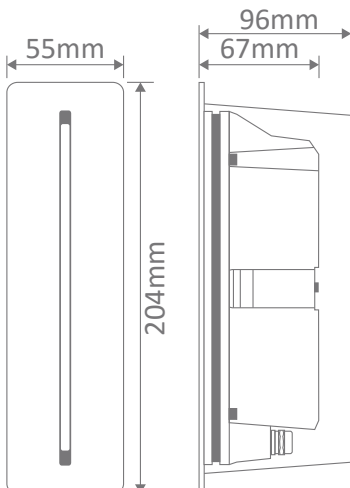

The BLADE is a unique and discrete recessed wall/path light for interior or exterior applications. This makes it a perfect luminaire for bringing the outside in. The BLADE's feature lies in the thin tight beam of light. Adding a line of BLADE fittings on low level pathways provides an attractive lighting effect, which shoots a thin line of light on the projected area. Available in White, Black and Silver finish, with the choice of Warm White 3000K or White 5000K LED.

Specification Features
